

eCTD

Are you capable of making regulatory submissions in an eCTD format? - Medfiles is!

We are able to assist you in your electronic submissions.

Medfiles eCTD services

- Preparation of an eCTD application from your CTD format documents
- Reformatting of your non-CTD format (e.g. NtA) application into a CTD format and preparation of an eCTD
- Compilation of full dossiers/ individual modules / variations etc. in a CTD format and preparation of an eCTD
- Preparation of an eCTD from your NeeS
- Product life cycle management of your eCTD format submissions within the eCTD tool.

In its regulatory submissions Medfiles utilises one of the most comprehensive management softwares in the world - the LORENZ docuBridge®. Most of the current types of paper / electronic documentation of CTD / NeeS may be built / validated / published / managed / formatted / converted within the LORENZ docuBridge®.

Benefits

- Expertise in preparation of eCTD-format applications
- Reduce your investment and personnel costs for eCTD
- Medfiles fulfills your individual needs and provides seamless collaboration.
